

With GYLA’s assistance Radio HERETI wins the case in the court against the Communications Commission

Today, Tbilisi City Court has annulled the resolution made by the Georgian National Communications Commission (GNCC) on cancellation of the competition on radio frequency announced in Batumi.

One of the participants was Radio HERETI, which met all the requirements of the competition, but due to the cancellation it was deprived the chance to start a local radio station “Batumi” in Batumi City.

Pursuant to the Court decision, the Communications Commission was required to re-examine the competition application of Radio HERETI.
